AMERICAN GOVERNMENT

American Government

11th Edition

Cal Jillson

Cal Jillson's highly lauded *American Government: Political Development and Institutional Change* uses political development and the dynamics of change as a thematic tool to help students understand how politics works now—and how institutions, participation, and policies have evolved over time to produce the contemporary political environment. In addition, Jillson helps students think critically about how American democracy might evolve further. The new edition includes timely updates on the Trump impeachment, the Covid-19 pandemic, Black Lives Matter and #MeToo.

2nd Edition

American Government

Constitutional Democracy Under Pressure

Cal Jillson, Southern Methodist University Southern Methodist University, Dallas, USA

This text highlights the tension between our constitutional principles and institutions and the populist heat that roils our national politics at the current political moment. Our democracy has been under pressure for some time, but few would deny that fears for its fate have deepened in just the past few years. We assume our political institutions will limit populist impulses, but will they? A polarized electorate, urging representatives to fight and never to compromise, may be stressing Constitutional limits. This new edition helps American government teachers

lead their students to an understanding of what is happening in the politics of their Constitutional democracy today.

9th Edition

American Politics and the African American Quest for Universal Freedom

Hanes Walton, Jr, University of Michigan, Robert C. Smith, San Francisco State University and Sherri L. Wallace

This dynamic and comprehensive text from nationally renowned scholars continues to demonstrate the profound influence African Americans have had—and continue to have—on American politics. Using two interrelated themes—the idea of universal freedom and the concept of minority–majority coalitions—this updated text demonstrates how the presence of Africans in the United States affected the founding of the Republic and its political institutions and processes. The authors show that through the quest for their own freedom in the United States, African Americans have universalized and expanded the freedoms of all Americans.

3rd Edition

Analyzing American Democracy

Politics and Political Science

Jon R. Bond and Kevin B. Smith, University of Nebraska-Lincoln, USA

This is an introductory American politics text covering the constitutional framework of American government, political behavior and informal institutions, the formal institutions of American government, and a concluding chapter on public policy. Every chapter highlights the most current thinking in political science research and discusses related public policy.

This text teaches students to think analytically by presenting current political science theories and research in answering the engaging, big questions facing American politics today. It serves as an introduction to the discipline by reflecting the theoretical developments and types of empirical inquiry conducted by research.

9th Edition

Approaching Democracy

American Government in Times of Challenge

Larry Berman, Bruce Allen Murphy, Nadia E Brown and Sarah Allen Gershon

This book covers the foundations, institutions, and processes of American democracy with a clear and relevant theme: the evolving nature of the American experiment in democratic government in a time of challenges to democracy on the home front as well as internationally. *Approaching Democracy* provides students with a framework to analyze the structure, process and action of US government, institutions and social movements. It also invites comparison with other countries.

The 25 Issues that Shape American Politics

Debates, Differences, and Divisions

Michael Kryzaneck and Ann K. Karreth

This book is organized to examine the major subjects taught in American politics through the lens of twenty-five hot button issues affecting American politics and policy today. These key issues reflect the ideas, principles, concerns, fears, morals, and hopes of the American people. The authors argue that these issues are the heart and soul of the American political system, serving as the basis for the disagreements that drive citizens, public servants, and elected officials into action.

4th Edition

The American Anomaly

U.S. Politics and Government in Comparative Perspective

Raymond A. Smith, New York University, USA

The American Anomaly systematically analyzes the U.S. political system by way of comparison with other countries, especially other industrialized democracies. It is organized into four sections, respectively covering the constitutional order, governmental institutions, political participation, and public policy. Extended case studies and examples in each chapter draw on all the major regions of the world.

Is This Any Way to Run a Democratic Election?

Stephen J. Wayne

The 2016 and 2018 elections are over, but looking ahead to the 2019-2020 election cycle, the debate over the fairness and accuracy of our electoral process has never been more contentious. Hacking, fake news, a 'rigged system,' voter ID challenges, Super PACs, and an Electoral College defying the popular vote count all lead to a common question and concern: Is this any way to run a democratic election?

CAMPAIGNS AND ELECTIONS

Campaigns and Elections

3rd Edition

Stephen K. Medvic

Stephen Medvic's *Campaigns and Elections* is a comprehensive yet compact core text that addresses two distinct but related aspects of American electoral democracy—the processes that constitute campaigns and elections and the players who are involved. In addition to balanced coverage of process and actors, it also gives equal billing to both campaigns and elections, and covers contests for legislative and executive positions at the national and state and local levels, including issue-oriented campaigns of note. The new edition is fully updated through the 2016 election.

Richard K. Scher, University of Florida, USA.

A Choice Highly Recommended Title—January 2017

This book is an interpretive analysis of political campaigns in America: It investigates the role campaigns play and the close symbiosis between campaigns and our politics. In the process, the author shows how campaigns are an important manifestation of how we "do" politics in this country.

The text asks important questions like:

How democratic are campaigns, and our politics, really? What is the relationship between the media and campaign professionals and what are the implications for the quality of reporting? What does the growth of "dark money" mean for our

democracy and our politics?

5th Edition

Campaigns and Elections American Style

The Changing Landscape of Political Campaigns

Edited by Candice J. Nelson and James A. Thurber

Following one of the most contentious and surprising elections in US history, the new edition of this classic text demonstrates unequivocally: Campaigns matter. Offering a unique and careful mix of Democrat and Republican, academic and campaign practitioner, and male and female campaign perspectives, this volume scrutinizes national and local-level campaigns with special focus on the 2016 presidential and congressional elections.

The Dance of Government and Politics

Jennifer Lees-Marshment, University Of Auckland, New Zealand

Political Management lays out the core tools to manage government, campaigns and parties. The first book to combine management concepts with politics and government, it provides core theories for what Political Planning, Political HR, Political Organising, Political Leadership and Political Reviewing involve.

By offering a clear sense of what political management involves and providing the theoretical frameworks for empirical research, this book will stimulate significant future study. It will be invaluable to practitioners, scholars and students in politics, government, policy, leadership, management, public

administration, and political management.

6th Edition

The Campaign Manager

Running and Winning Local Elections

Catherine Shaw

Successful campaign manager and three-term mayor of Ashland, Oregon, Catherine Shaw presents the must-have handbook for navigating local campaigns. This clear and concise handbook gives political novices and veterans alike a detailed, soup-to-nuts plan for organizing, funding, publicizing, and winning local political campaigns. Finding the right message and targeting the right voters are clearly explained through specific examples, anecdotes, and illustrations. Shaw also provides in-depth information on assembling campaign teams and volunteers, canvassing, how to conduct a precinct analysis, and how to campaign on a shoestring budget.

3rd Edition

The Imperfect Primary

Oddities, Biases, and Strengths of U.S. Presidential Nomination Politics

Barbara Norrander, University of Arizona, USA

Series: *Controversies in Electoral Democracy and Representation*

In this thoroughly updated third edition of *The Imperfect Primary*, political scientist Barbara Norrander explores how presidential candidates are nominated, how that process bridges to the general election campaign, discusses past and current proposals for reform, and examines the possibility for more practical, incremental changes to the electoral rules. Through the modeling of empirical research to demonstrate how questions of biases can be systematically addressed, students can better see the advantages, disadvantages, and potential for unintended consequences in a whole host of reform proposals.

CONGRESS

A Divided Union

Edited by Dario Moreno, Eduardo Gamarra, Patrick Murphy and David Jolly

A Divided Union delves deep into ten pressing political challenges central to the dysfunction in Congress and the country today. The core of the book is original analysis by experts on key topics such as geographic challenges, demographic change, a polarized media, gerrymandering, the role of money in politics, and the structure of primary elections. Contributors include former federal elected officials, political science professors, members of the press, and scholars immersed in their fields of study. *A Divided Union* is appropriate for all political science students as well as the general public frustrated and alarmed by political deadlock.

3rd Edition

Cases in Congressional Campaigns

Split Decision

Edited by Randall E. Adkins, University of Nebraska, Omaha, USA and David A. Dulio, Oakland University, USA

Looking at issues ranging from the Kavanaugh confirmation, health care, the economy, and the impact of President Trump, this book traces the dynamics at work in the 2018 Midterm elections. The editors open with an explanation of the trends in this election cycle, followed by eight in-depth case studies of House and Senate toss-up races involving seats held by endangered Republican incumbents. The book shows how 2018 fits into the context of precursor midterm campaigns and what the analysis of competitive states and districts holds for 2020.

2nd Edition

Congress in Context

John Haskell, Sara Grove and Marian Currinder

The U.S. Congress is by the far the least popular (and most misunderstood) branch of the federal government. *Congress in Context* de-mystifies the institution, giving students a comprehensive and practical understanding of Congress and the legislative process. This book takes a different approach to the study of Congress than other texts. Usually Congress is treated in isolation from the rest of the government. But the Framers of the Constitution explicitly intended for the branches of government to be interdependent. *Congress in Context* introduces readers to Congress's critical role in the context of this interdependent system.

2nd Edition

New Directions in Congressional Politics

Edited by Jamie L. Carson, University of Georgia, USA and Michael S. Lynch, University of Georgia, USA

Series: *New Directions in American Politics*

This second edition offers an accessible overview of the current developments in our understanding of America's legislative branch. The authors help students bridge the gap between roles, rules, and outcomes by focusing on a variety of thematic issues: the importance of electoral considerations, legislators' strategic behavior to accomplish objectives, the unique challenges of Congress as a bicameral institution in a polarized environment, and the often-overlooked policy outputs of the institution. New features include women in Congress, a first look at

Congressional-executive relations in the Trump era, and updated data through the 2018 Midterm elections.

4th Edition

The Congressional Experience

An Institution Transformed

David E Price

Congressman David Price is uniquely qualified to guide readers through the labyrinth of Congress, to portray honestly its strengths and failings, and to illuminate the forces transforming the institution. As a trained political scientist, he connects the practical politics on the Hill with the theories of the discipline. He is equally focused on the ethics of public service at a time when politics seem to have reached a new low. Through it all, he conveys a clear sense of the challenges, disappointments, elations, and deep concerns implicit in serving as a member of Congress—especially at a time of national and international fragility.

17th Edition

Alpheus Thomas Mason, Princeton University and Donald Grier Stephenson, Jr., Franklin & Marshall College

This classic collection of carefully selected and edited Supreme Court case excerpts and comprehensive background essays explores constitutional law and the role of the Supreme Court in its development and interpretation. Well-grounded in both theory and politics, it endeavors to heighten students' understanding of and interest in these critical areas of our governmental system. The new edition covers the death of Antonin Scalia and ensuing controversies, includes cases from the 2015-2016 term decided by 8 justices and highlighted recent

cases (Sebelius on Obamacare, Obergefell on same sex marriage, and two new cases on government surveillance).

11th Edition

American Constitutional Law, Volume I

The Structure of Government

Ralph A. Rossum, G. Alan Tarr and Vincent Phillip Munoz

American Constitutional Law 11e, Volume I provides a comprehensive account of the nation's defining document, examining how its provisions were originally understood by those who drafted and ratified it, and how they have since been interpreted by the Supreme Court, Congress, the President, lower federal courts, and state judiciaries. Clear and accessible chapter introductions and a careful balance between classic and recent cases provide students of national powers and civil liberties with a sense of how the law has been understood and construed over the years including the major constitutional controversies and cases decided since the publication of the 10th Edition.

4th Edition

Civil Rights and Liberties in the 21st Century

John C. Domino

This up-to-date book analyzes the Supreme Court's landmark rulings on civil rights and liberties. It serves as a core text in courses on civil liberties and civil rights, or as a supplementary text in courses on constitutional law and the judiciary. The key to John Domino's approach is that understanding constitutional law is not having the right answers but asking the right questions. This text encourages students to think critically and provides a historical context to better understand competing interests affecting the Court's decisions. It reminds us that "the Court" is not an abstract legal mechanism, but a group of human beings with divergent opinions.

3rd Edition

Edited by Claire B. Rubin

The newly updated edition of *Emergency Management: The American Experience* continues the tradition of all previous editions: a succinct yet comprehensive teaching and learning textbook to understand the essential political and policy underpinnings of emergency management in the United States. Documenting more than a century of historic disaster events in the U.S., foremost authorities who research, teach, and advise on emergency management, have revised and updated their contributions to reflect on the lessons learned since 2010.

7th Edition

Environmental Policy and Politics

Michael E. Kraft, University of Wisconsin, Green Bay
Covering global threats such as climate change, population growth, and loss of biodiversity, as well as national, state, and local problems of environmental pollution, energy use, and natural resource use and conservation, *Environmental Policy and Politics* provides a comprehensive overview of U.S. policy-making processes, the legislative and administrative settings for policy decisions, the role of interest groups and public opinion in environmental politics, and the public policies that result. It helps readers understand modern environmental policy and its implications, including the need for a comprehensive and integrated approach to problem-solving.

Stories of Villains, Heroes, and the Rest of Us

Denise L. Scheberle, University of Colorado Denver, USA
Environmental stories have all the elements that make for a good drama—villains that plunge us into danger, and heroes that fight for positive change. *Industrial Disasters and Environmental Policy: Stories of Villains, Heroes, and the Rest of Us* illuminates the interplay between environmental policies and the people and groups who influence their development and implementation. With its compelling stories and calls to action, this book helps students understand how US environmental policies have developed and transformed—and how they can continue to do so.

7th Edition

The Environmental Policy Paradox

Zachary A. Smith, Northern Arizona University, Flagstaff, USA
Updated in its seventh edition, *The Environmental Policy Paradox* provides an introduction to the policy-making process in the United States with regard to air, water, land use, agriculture, energy, and waste disposal, while introducing readers to both environmental issues and institutions. The text explains why some environmental ideas shape policy while others do not, and illustrates that even when the best solutions to environmental problems are identified, implementation is often left undone or is completed too late. Readers are presented with a comprehensive history of the environmental movement paired with the most up-to-date account of environmental policy

available today.

Fictional Explorations of Human Experiences

**Thomas E. Drabek**, University of Denver, USA

In a book as illuminating as it is captivating, Thomas E. Drabek presents the first in-depth analysis of the emotional impacts of disaster events and the many ripple effects that follow. Through the technique of storytelling, nine fictional stories where characters experience actual disasters of different types throughout the United States illustrate the vulnerabilities and resilience to enhance the readers' understanding of disaster consequences. Designed for classroom use, each story is followed by an "Analysis" section wherein discussion and research paper topics are recommended. Brief commentary adds further connections to other disasters and relevant research studies.

2nd Edition

**Judith Grant**

In *Fundamental Feminism*, Judith Grant explores the evolution of feminist theory as well as the state of today's feminist thought. Pointing to the main problems within feminism, Grant calls for a substantial revision of the core concepts responsible for shaping today's feminist theory. Grant identifies and critiques three core concepts in feminist theory – "woman," "experience," and "personal politics" – from their origins in pamphlets and writings in the early women's liberation movement to their current construction in feminist thought.

The Politics of Sex

Public Opinion, Parties, and Presidential Elections

Susan B. Hansen, University of Pittsburgh, USA

This insightful book explores trends in public opinion on abortion, gay rights, and the status of women and finds that "values voters" are still crucial in presidential elections, even those supposedly fought over economic or foreign-policy issues. Hansen then analyzes recent elections to show how Democrats have made effective use of the liberal trends in public opinion on social issues. Hansen also examines trends in demographics, religious involvement, and public opinion to show how and why the politics of sex now favors the Democratic Party.

"Anyone who wants to understand the politics of the recent past—and the future—should read this book."—David Campbell, *University of Notre Dame*

4th Edition

Women and Politics

The Pursuit of Equality

Lynne Ford

Women and Politics is a comprehensive examination of women's use of politics in pursuit of gender equality. How can demands for gender equality be reconciled with sex differences? Resolving this paradoxical question has proceeded along two paths: the legal equality doctrine, which emphasizes gender neutrality, and the fairness doctrine, which recognizes differences between men and women. This fourth edition explores new critical perspectives, recent political events, and current challenges to gender equality, including the 2016 presidential election and Hillary Clinton's candidacy, the fight for equal pay and paid leave, and the debate over reproductive rights and campus sexual assault.

5th Edition

Women's Rights in the USA

Policy Debates and Gender Roles

Dorothy E. McBride, Florida Atlantic University, USA and Janine A. Parry, University of Arkansas, USA

Women's Rights in the USA examines the policy debates critical to women in American society and politics. Analyzing both the historical contexts and current controversies, the authors show the processes behind the statutes, court cases, and administrative rules that have shaped women's lives in the United States.

McBride and Parry cover a full spectrum of policy areas, including constitutional law, political participation, family law, education, work pay, family, sexuality, and economic status, and portray the role of women activists in shaping them.

INTEREST GROUPS

Interest Groups and Lobbying

2nd Edition

Thomas T. Holyoke

Interest Groups and Lobbying shows how political organizations and their lobbyists play a crucial role in how public policy is made in the United States. This book cuts through the myths and misconceptions about interest groups and lobbyists with an accessible and comprehensive text that lays out the facts supported by the latest research. Pulling together the two areas of interest group scholarship – why advocacy organizations form and how they are able to influence Washington lawmakers – Thomas Holyoke shows students the inner workings interest groups in the United States, using case studies to bring into sharp focus the issues surrounding lobbying in Washington, DC.

2nd Edition

Interest Groups in American Politics

Pressure and Power

Anthony J. Nownes, University of Tennessee, Knoxville, USA

This concise but thorough text demonstrates that interest groups are involved in the political system at all levels of government—federal, state, and local—and in all aspects of political activity, from election campaigns to agenda setting to lawmaking to policy implementation. The much anticipated revision of Nownes's text retains a student friendly tone and thoroughly updates the references to interest group research, as well as adds a new chapter on the connections between interest groups and political parties. Numerous figures and tables throughout the book help students visualize important trends and information.

6th Edition

The Interest Group Society

Jeffrey M. Berry and Clyde Wilcox

Considered the gold standard on interest group politics, this widely-used text analyzes interest groups within the intuitive framework of democratic theory, enabling readers to understand the workings of interest groups within the larger context of our political system. Comprehensive coverage includes not only the traditional farm, labor, and trade associations, but also citizen groups, public interest organizations, corporations, and public interest firms

Brief in page count yet comprehensive in coverage, the book is flexible for different class settings. The book's rich content and lean size allows it to stand alone as the centerpiece of a course, or be assigned as one of several texts.

JUDICIAL POLITICS

American Judicial Process

Pamela C. Corley, Southern Methodist University, USA, Artemus Ward and Wendy L. Martinek, Binghamton University, USA

This text is a general introduction to American judicial process. The authors cover the major institutions, actors, and processes that comprise the U.S. legal system, viewed from a political science perspective and specifically in terms of justice.

Grounding their presentation in empirical social science terms, the authors identify popular myths about the structure and processes of American law and courts and then contrast those

myths with what really takes place.

American Judicial Process emphasizes how pop culture portrays—and often distorts—the judicial process and how social science research is brought to bear to provide an accurate picture of law and courts.

8th Edition

American Law and Legal Systems

James V. Calvi and Susan Coleman

American Law and Legal Systems examines the philosophy of law within a political, social, and economic framework with great clarity and insight. Readers are introduced to operative legal concepts, everyday law practices, substantive procedures, and the intricacies of the American legal system. Eliminating confusing legalese, the authors skillfully explain the basics, from how a lawsuit is filed through the final appeal. This new edition provides essential updates to forensic and scientific evidence, contract law, and family law, and includes new text boxes and tables to help students understand, remember, and apply central concepts.

Judicial Politics in the United States

Mark C. Miller, University of New Mexico, Albuquerque

This book examines the role of courts as policymaking institutions and their interactions with the other branches of government and other political actors in the U.S. political system. Not only does this book cover the nuts and bolts of the functions, structures and processes of our courts and legal system, it goes beyond other judicial process books by exploring how the courts interact with executives, legislatures, and state and federal bureaucracies. It also includes a chapter devoted to the courts' interactions with interest groups, the media, and general public opinion and a chapter that looks at how American courts and judges interact with other judiciaries around the world.

7th Edition

Judicial Process and Judicial Policymaking

G. Alan Tarr

An excellent introduction to judicial politics as a method of analysis, the seventh edition of *JUDICIAL PROCESS AND JUDICIAL POLICYMAKING* focuses on policy in the judicial process. Rather than limiting the text to coverage of the U.S. Supreme Court, G. Alan Tarr examines the judiciary as the third branch of government, and weaves four major premises throughout the text: 1) Courts in the United States continue to play an important role in governing; 2) Judicial policymaking is a distinctive activity; 3) Courts make policy in a variety of ways; and 4) Courts may be the objects of public policy, as well as creators. Appropriate for all students of judicial policy and process.

Social Identity and the Law

Race, Sexuality and Intersectionality

Barbara L. Graham, University of Missouri-St. Louis, USA

This book is an important resource for inquiry into the relationship between law and social identity in the contexts of race, sexuality and intersectionality in the United States. Graham provides a systematic legal treatment of selected historical and contemporary civil rights and social justice issues. Throughout, an intersectional approach is at the center of understanding the meaning of equality and how groups have used the courts to fight discrimination. With a logical chapter structure and accessible writing style, this textbook is an essential companion for use on undergraduate courses on American constitutional law, civil liberties and civil rights, social justice, and race and law.

POLITICAL ECONOMY**Political Economy of the United States**

Joel W. Johnson, North Carolina State University, USA.

This book provides an introduction to the contemporary political economy of the United States. It examines the politics of economic policymaking, the influence of federal policies and programs on the economy, and the co-evolution of politics and the economy over the past five decades. Along the way, it explains the causes and consequences of many contemporary phenomena, such as the government's deficits and debt and the ideological polarization of the parties.

POLITICAL PARTICIPATION**Rebellion in America**

Anthony DiMaggio

This book looks at the progression of modern social uprisings in the post-2008 period, including the Tea Party, Occupy Wall Street, Black Lives Matter, the Bernie Sanders "Revolution," Trump's populism, the anti-Trump revolt, and #MeToo. A key theme is that populism and mass anger at the political-economic status quo take different forms depending on whether the protests are progressive-left or right-wing in orientation. Employing theories of elite politics and pluralism, and using a mixed-methods approach, this text is aimed at courses on social movements wherever they're taught, and also offers general readers insight into contemporary politics and protest.

POLITICAL PARTIES**Party Politics in America, 18th Edition**

Marjorie Randon Hershey

Considered the "gold standard" of political parties texts, this new, eighteenth edition of *Party Politics in America* moves its comprehensive and authoritative coverage into the age of deepened partisan conflict, expanded presidential power, and global health threats. Marjorie Hershey builds on the book's three-pronged coverage of party organization, party in the electorate, and party in government and integrates important developments in racial politics, social media use, and battles over access to the vote. The book uses contemporary examples to bring to life the fascinating story of how parties shape our political system.

PRESIDENCY

New Directions in the American Presidency, 2E

Edited by **Lori Cox Han**, Chapman University, Orange, California, USA

Series: *New Directions in American Politics*

Especially coming out of the landmark presidential elections of 2008 and 2016, the study of the American presidency—both as a political institution and of those who have held the office—is one of the most fascinating and dynamic fields of study within American government. This volume of original chapters by leading presidential scholars is designed to include all the essential topics covered in an undergraduate-level presidency course or a graduate-level seminar while also bringing together key disciplinary debates and treatment of important current

real-world developments. Each chapter is written with students in mind so that it remains accessible, interesting, and engaging.

Presidency and Domestic Policy

Comparing Leadership Styles, FDR to Obama

Michael A. Genovese, Todd L. Belt and William W. Lammers

This book systematically examines the first terms of every president from FDR to Barack Obama and assesses the leadership style and policy agenda of each. Success in bringing about policy change is shown to hinge on the leadership style and skill in managing a variety of institutional and public relationships. The second edition of this timely book adds chapters on George W. Bush and Obama and focuses on the significant domestic policy challenges of their respective times. The authors have reconfigured the analytical framework of the book to take into account the 'dynamic opportunity structure' that emerged during the George W. Bush administration. The Presidency and Domestic Policy provides unique insights into contemporary

presidential leadership in a highly partisan age.

Presidential Leadership in Crisis

Defining Moments of the Modern Presidents from Franklin Roosevelt to Donald Trump

Kenneth T. Walsh

Crises pose a challenge to leaders as no other tests they confront. In this comprehensive and timely book, veteran journalist Kenneth T. Walsh offers a probing look at how presidents from FDR to Trump dealt with crises they faced. Including domestic as well as international issues, this book stands apart from other accounts of presidents in crisis. Walsh is in search of lessons we can learn, and his findings focus on the presidential attributes and skills that matter most in trying times. This expertly crafted, elegantly written book is appropriate for a variety of college courses and will find its way onto the reading lists of ambitious politicians and interested citizens alike.

Presidential Power

Theories and Dilemmas

John P. Burke

Presidential Power: Theories and Dilemmas by noted scholar John P. Burke provides an updated and comprehensive look at the issues, constraints, and exercise of presidential power. This book considers the enduring question of how presidents can effectively exercise power within our system of shared powers by examining major tools and theories of presidential power, including Neustadt's theory of persuasion and bargaining as power, constitutional and inherent powers, Samuel Kernell's theory of going public, models of historical time, and the notion of internal time.

3rd Edition

The Development of the American Presidency

Richard J. Ellis, Willamette University, USA

A full understanding of the institution of the American presidency requires us to examine how it developed from the founding to the present. *The Development of the American Presidency* pays great attention to that historical weight but is organized by the topics and concepts relevant to political science, with the constitutional origins and political development of the presidency its central focus. Through comprehensive and in-depth coverage, Richard Ellis looks at how the presidency has evolved in relation to the public, to Congress, to the executive branch, and to the law, showing at every step how different aspects of the presidency have followed distinct trajectories of

change.

2nd Edition

The President as Leader

Michael Eric Siegel

By analyzing the leadership skills of six recent American presidents, this book seeks to de-mystify the elements and dynamics of effective presidential leadership which our democracy has come to depend upon and value. Building on the pioneering work of political scientist Fred Greenstein and others, this book argues that leadership in the White House can be explained and assessed by using a consistent set of criteria to analyze presidential performance. Siegel shows that presidential leadership is exercised by real, flawed human beings, and not by superheroes or philosopher-kings beyond the reach of scrutiny or critique.

The Unitary Presidency

Graham G. Dodds

Series edited by Robert J. Spitzer

Series: *Presidential Briefings Series*

The unitary executive theory holds that the US president alone embodies all executive power and therefore has unlimited authority over the many people and institutions within the executive branch. Proponents say this role is faithful to the Constitution, facilitates the sort of energetic executive that Alexander Hamilton favored, and enhances administrative efficacy and political accountability. Critics say this arrangement is dangerously close to the monarchical power that provoked the American Revolution—and especially threatening in the era of Donald Trump. This book examines how controversies about

unitary executive power have played out from the founding era to the present day.

PUBLIC OPINION AND POLLING

American Public Opinion

10th Edition

Robert S. Erikson, Columbia University, USA and Kent L. Tedin, University of Houston, USA

Providing an in-depth analysis of public opinion, including its origins in political socialization, its role in the electoral process, and the impact of the media, *American Public Opinion* goes beyond a simple presentation of data to include a critical analysis of the role of public opinion in American democracy.

3rd Edition

New Directions in Public Opinion

Edited by Adam J. Berinsky

Series: *New Directions in American Politics*

The 2016 elections called into question the accuracy of public opinion polling while tapping into new streams of public opinion. The third edition of this well-established text addresses these questions and adds new perspectives to its authoritative line-up. The hallmark of this book is making cutting edge research accessible and understandable to students and general readers. Here we see a variety of disciplinary approaches to public opinion reflected including psychology, economics, sociology, and biology in addition to political science. An emphasis on race, gender, and new media puts the elections of 2016 into context and prepares students to look ahead to 2020

and beyond.

People and Their Opinions

Richard Sobel, Richard Sobel, Harvard University, USA and Eric B. Shiraev, George Mason University, USA

Utilizing both a critical thinking approach and a comparative perspective throughout the text, Sobel and Shiraev provide comprehensive coverage of public opinion while also teaching students the basic skills necessary for measurement, understanding, and interpreting. Written in an accessible and engaging manner, this text provides a unique and practical introduction to the field of public opinion. The book begins by "schooling" the reader in how to think critically and then helps students apply those techniques as they encounter the concepts of public opinion. The text also employs a comparative perspective, demonstrating the effect and nature of public opinion in other countries while also placing American public opinion in context.

3rd Edition

Public Opinion

Carroll J. Glynn, Susan Herbst, Mark Lindeman and Garrett J. O'Keefe

Public Opinion is a comprehensive and multidisciplinary examination of public opinion in the United States. Drawing on scholarship in political science, psychology, sociology, and communications, the authors explore the nature of political and social attitudes in the United States and how these attitudes are shaped by various institutions, with an emphasis on mass media. The book also serves as a provocative starting point for the discussion of citizen moods, political participation, and voting behavior. Feature boxes and illustrations throughout help students understand all aspects of the elusive phenomenon we call public opinion.

RACE AND ETHNICITY

American Politics and the African American Quest for Universal Freedom, 9th Edition

Hanes Walton, Jr., University of Michigan, Robert C. Smith, San Francisco State University and Sherri L. Wallace

This dynamic and comprehensive text from nationally renowned scholars continues to demonstrate the profound influence African Americans have had—and continue to have—on American politics. Using two interrelated themes—the idea of universal freedom and the concept of minority-majority coalitions—this updated text demonstrates how the presence of Africans in the United States affected the founding of the Republic and its political institutions and processes. The authors show that through the quest for their own freedom in the United States, African Americans have universalized and expanded the freedoms of all Americans.

Can We All Get Along?

Racial and Ethnic Minorities in American Politics

Paula McClain and Jessica Carew

This acclaimed text provides a comprehensive and accessible overview of the historical and contemporary political experience of the major American minority groups, exploring the similarities and differences in these groups' representation and participation in law, politics, and policymaking; discussing the enduring issues and concerns that they face; and examining intra- and inter-group competition and coalition-building in the face of enduring conflict and inequality. With a brand-new chapter on the intersections of race and gender, *Can We All Get Along?* remains unparalleled in its coverage of the current landscape of minority politics in the US.

RELIGION AND POLITICS

Politics and Religion in the United States, 2E

Michael Corbett, Julia Corbett-Hemeyer, Ball State University, USA and J. Matthew Wilson, Southern Methodist University, USA.

This much-anticipated revision brings Corbett and Corbett's classic text fully up-to-date. The 2nd edition continues with a thorough discussion of historical origins of religion in political life, constitutional matters, public opinion, and the most relevant groups. Revisions include fully updating all the public opinion data, fuller incorporation of voting behavior among different religious and demographic groups, and enhanced discussion of minority religions.

SPECIAL TOPICS

Immigration in the 21st Century

Terri E. Givens, Rachel Navarre and Pete Mohanty

This text provides an introduction to the politics of immigration policy in the U.S., Australia, Canada, and Europe. It gives students an overview of the theoretical approaches used by political scientists to analyze immigration politics and provides historical background to the policies and politics that affect democracies today. A comparative politics approach develops the context that explains how immigration and politics interact in different types of countries. Covering topics including party politics, labor migration, and citizenship, students gain an understanding of the complexities of immigration politics and how immigration policies are affecting the world today.

The Politics of Gun Control

Robert J. Spitzer

This book is the classic work on the tumultuous national gun debate in the US. The eighth edition brings together the latest research in gun politics, policy, law, history, and criminology and covers new topics including the Second Amendment sanctuary movement, the connection between the concealed gun carry movement and crime, the cascading troubles besetting the National Rifle Association coupled with a surging gun safety movement, the bump stock controversy, and the rise of red flag laws. This book provides a comprehensive and accessible source widely used by scholars, journalists, and in classrooms.

Class Conflict, the News Media, and Ideology in an Era of Record Inequality

Anthony R. DiMaggio

This book examines Americans and their beliefs about the class divide in the United States. It argues that Americans' beliefs about class and the economic divide develop through a multi-step process. Economic affluence influences the development of world view, measured in terms of ideology, partisanship, and self-identified class consciousness. Class consciousness in turn affects how people look at political and economic issues. This book is intended for scholars and students at every level who study inequality from a political, economic, or sociological position, along with general readers with a growing interest and awareness of the effects of inequality on our democracy.

2nd Edition

Local Government and the States

Autonomy, Politics, and Policy

David R. Berman

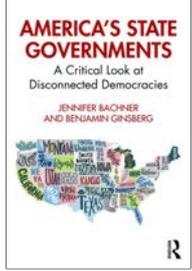

This book offers an overview of the legal, political, and broad intergovernmental environment in which relations between local and state units of government take place. The author pays special attention to local governmental autonomy and the goals and activities of local officials as they seek to secure resources, fend off regulations and interventions, and fight for survival as independent units. Now in a thoroughly revised second edition, this book examines marijuana use, minimum wages, the establishment of sanctuary cities, and the regulation of ride-sharing companies, providing a thoughtful look at the past, present, and possibly the future of local home rule.

Jennifer Bachner and Benjamin Ginsberg

This timely and important new work takes a critical look at government in the American states and illustrates the disconnect between state government institutions and their constituents. The text illuminates three basic political problems of state governments: weak constitutional and institutional foundations; a lack of civic engagement; and long histories of unchecked public corruption. For students and citizens of state politics, the book concludes with a proposal aimed at civic literacy and action.

Texas Politics

Governing the Lone Star State

Cal Jillson, Southern Methodist University Southern Methodist University, Dallas, USA

The seventh edition of this popular text has been expanded and updated to better fit the needs of a stand-alone Texas politics course. Jillson continues to approach the politics of the Lone Star State from historical, developmental, and analytical perspectives, while giving students the most even-handed, readable, and engaging description of Texas politics available today. This text helps instructors prepare their students to master the origin and development of the Texas Constitution, the structure and powers of state and local government in Texas, how Texas fits into the U.S. federal system, as well as political participation, the electoral process, and public policy in Texas.

2nd Edition

Federalism and the Making of America

David Brian Robertson, University of Missouri - St. Louis, USA

Some of the most spectacular political conflicts in American history have been fought on the battlefield of federalism—the division of government authority between the national government and the states—including states' rights to leave the union and responses to the problems of race, poverty, pollution, and gay rights. This indispensable text treats the politics of federalism systematically and accessibly. The new edition shows that past choices shape present circumstances, and that a deep understanding of American government, public policy, political processes, and society requires an understanding of the key steps in federalism's evolution in American history.

Edited by Richard W. Mansbach, Iowa State University, USA and James M. McCormick, Iowa State University, USA

Series: Routledge Studies in US Foreign Policy

This volume focuses on the sensitive foreign policy issues that have faced the Trump administration and which will determine the prospects for American decline or continued hegemony. Contributions are divided into "regional" and "functional" issues, exploring the nature and significance of the challenge, the previous response and President Trump's policies and their consequences. Topics have been selected to address political, military, economic, and social factors in global politics and the book will appeal to undergraduates and scholars of US foreign

policy at all levels.

Human Rights and U.S. Foreign Policy

Prevarications and Evasions

Clair Apodaca, Virginia Tech University, USA

Series: *Routledge Studies in Human Rights*

Through a series of chapters devoted to U.S. presidential administrations from Nixon to the present, Apodaca delivers a comprehensive examination to understand the development and implementation of U.S. human rights policy. For each administration, she pays close attention to how ideology, bureaucratic politics, lobbying, and competition affect the inclusion or exclusion of human rights in the economic and military aid allocation decisions of the U.S. In doing so, she argues that the history of U.S. human rights policy unfolds as a series of paradoxes that are the result of Presidential preferences, conflict, and cooperation among bureaucratic actors, and of

various political events.

Ideologies of American Foreign Policy

John Callaghan, Brendon O'Connor, US Studies Centre, University of Sydney, Australia. and Mark Phythian, University of Leicester, UK

Series: *Routledge Studies in US Foreign Policy*

A comprehensive account of ideology and its role in the foreign policy of the USA, this book investigates the way US foreign policy has been understood, debated and explained in the period since the US emerged as a world power, on its way to becoming the world power. Starting from the premise that ideologies provide explanatory patterns or frameworks from which meaning can be derived, the authors study the relationship between ideology and foreign policy, demonstrating

the important role ideas have played. Bringing a neglected dimension into the study of US foreign policy, this book will be of great interest to students and researchers of US foreign policy, ideology and politics.

7th Edition

National Security

Donald M. Snow, University of Alabama, USA

The seventh edition of this highly successful textbook analyzes the history, evolution, and processes of national security policies. It examines national security from two fundamental fault lines: the end of the Cold War and the evolution of contemporary terrorism since 9/11. The book considers how the resulting era of globalization and geopolitics guides policy, covering everything from the global to the individual with the nation at its core. This book will continue to be highly beneficial to students and scholars working and studying in Security studies, Military and Strategic studies, Defence studies, Foreign Policy, US Politics and International Relations.

VOTING BEHAVIOUR

A Citizen's Guide to the Political Psychology of Voting

David P. Redlawsk and Michael W. Habegger

Series: *Citizen Guides to Politics and Public Affairs*

This book offers a way of thinking about how voters make decisions that provides both hope and concern. Can voters do a "good enough" job of processing vast amounts of election information even if they fail to account for everything during the campaign? Here, Redlawsk and Habegger portray a wide variety of voter styles and approaches in vignettes that connect the long tradition of voter survey research to real life voting challenges. They explore how voters search for political information and make use of it in evaluating candidates and their positions. For citizen voters, students and scholars, their results should encourage regular turnout for elections now and

in the future.

A Profile of the American Electorate

Partisan Behavior and the Need for Reform

Matthew L. Bergbower

A Profile of the American Electorate takes an extensive look at the political foundations and behaviors of citizens, yesterday and today. Presenting decades of data on voter choice, voter turnout, and public opinion in a way that is clear and accessible for students of political science, the book uniquely emphasizes the importance of voting, socialization, and reform measures to enhance good citizenship. It explores how Americans become conservative or liberal, why some vote and others stay home, their knowledge of politics, how polarized the public has become, and the complex motivations behind their vote choices.

5th Edition

Is Voting for Young People?

Martin P. Wattenberg, University of California, Irvine, USA

This book explores the reasons why young people are less likely to follow politics and vote in the United States (as well as in many other established democracies) no matter who the candidates are, or what the issues may be. This brief, accessible, and provocative book suggests ways of changing that. For the first time since its original publication in 2006, each chapter has been thoroughly updated to reflect the most recent available data. A new chapter has also been added on the *Young People and Politics in the Trump Era*.

Why Vote?

Essential Questions About the Future of Elections in America

Daniel M. Shea

For nearly 200 years, Americans have pinned the democratic character of their system on elections. We have become an election-crazed nation, ever-hoping that the next grand contest or fresh candidate will save the day. But the system is being contorted by a novel brand of partisan polarization, voter access limits, out-of-control social media, declining objectivity, outside interferences, a hyper-partisan press, and more. We've reached a precarious moment in the history of our democracy and it is no stretch to say the future of the republic is at stake. This lively, accessible book tees up a new way of thinking about the future of elections—and beyond—in America.

BRITAIN AND EUROPE

Britain and the European Union

David Gowland

This engaging and concise text offers the student and the general reader a compact, readable treatment of British membership of the European Union from 1973 to the present day. It provides a highly distilled and accessible analysis and overview of some of the parameters and recurring features of Britain's membership of the European Union, touching on all of the major facets of membership. It also presents the most comprehensive and up-to-date text on the course and result of the EU referendum campaign.

Italian Democracy

How It Works

Gianfranco Pasquino, Johns Hopkins SAIS Europe, Bologna Center, Italy

This textbook, from one of Italy's most eminent scholars, provides broad coverage and critique of Italian politics and society. Providing the readers with the knowledge necessary to understand the working of the Italian political system, it also offers answers to some of the most important challenges facing the country – and other contemporary democracies – today, such as populism, anti-politics, and corruption. Critical but underpinned by thorough data and analysis, it presents alternative views alongside the author's interpretation.

COUNTRY COVERAGE

Contemporary Spanish Politics, 3rd Edition

José M. Magone, Berlin School of Economics and Law, Germany.

This fully revised and updated 3rd edition reflects the considerable changes in Spain over the last decade as the country celebrates 40 years of its constitution. Thoroughly examining Spain's historical background, political culture, core political institutions and foreign policy-making, each chapter provides a research-based overview of the studied topic which can then be used as the basis for further research by students.

2nd Edition

The Politics of the New Germany

Simon Green

The Politics of the New Germany continues to provide the most comprehensive, authoritative and up-to-date textbook on contemporary German Politics. It covers the entire postwar era but has a particular focus on the post-reunification era.

Written in a straightforward style by three experts, each of the chapters draws on a rich variety of real-world examples. In doing so, it highlights both the challenges and opportunities facing policy-makers in such areas as foreign affairs, economic policy, immigration, identity politics and institutional reforms.

This 2nd edition has been revised and updated throughout and features new material on:

Grand Coalition Lisbon treaty Constitutional Court financial crisis and credit crunch reform of social policy Afghanistan.

INTRODUCTION TO EU POLITICS

The European Union

7th Edition

Jonathan Olsen, Texas Woman's University, USA

Thoroughly revised, the seventh edition of this accessible and highly respected text provides a rigorous yet digestible introduction to the European Union. Additionally, it authoritatively explains developments that continue to bring challenges to this powerful institution in times of great political change. Key features include: sustained discussion of transformative and historical change in the upheaval of Brexit and its ramifications; thorough reflection on destabilising issues such as immigration and the years of refugee crisis in Europe, and the rise of populism; and increased coverage throughout of women or minorities within the EU.

Muslim Democracy

Politics, Religion and Society in Indonesia, Turkey and the Islamic World

Edward Schneier, City College of the City University of New York

Muslim Democracy explores the relationship between politics and religion in forty-seven Muslim-majority countries, focusing especially on those with democratic experience, such as Indonesia and Turkey, and drawing comparisons with their regional, non-Islamic counterparts. Unlike most studies of political Islam, this is a politically-focused book, more concerned with governing realities than ideology. By changing the terms of the debate from theology to politics, and including the full complement of Islamic countries, Schneier shows that the boundaries between church and state in the Islamic world are more variable and diverse than is commonly assumed.

COMPARATIVE POLITICS

Issues and Methods in Comparative Politics

4th Edition

Todd Landman, University of Nottingham, UK and Edzia Carvalho

Building on the strengths of the third edition, this highly regarded textbook continues to provide the best introduction to the strategies of comparative research in political science. Divided into three parts, the book begins by examining different methods, applying these methods to dominant issues in comparative politics using a wealth of topical examples from around the world, and then discusses the new challenges in the area.

EUROPEAN INDIVIDUAL COUNTRY POLITICS

Contemporary Spanish Politics, 3rd Edition

José M. Magone, Berlin School of Economics and Law, Germany.

This fully revised and updated 3rd edition reflects the considerable changes in Spain over the last decade as the country celebrates 40 years of its constitution. Thoroughly examining Spain's historical background, political culture, core political institutions and foreign policy-making, each chapter provides a research-based overview of the studied topic which can then be used as the basis for further research by students.

Italian Democracy

How It Works

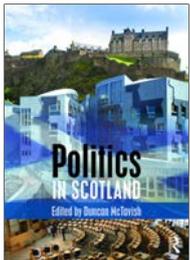

Gianfranco Pasquino, Johns Hopkins SAIS Europe, Bologna Center, Italy

This textbook, from one of Italy's most eminent scholars, provides broad coverage and critique of Italian politics and society. Providing the readers with the knowledge necessary to understand the working of the Italian political system, it also offers answers to some of the most important challenges facing the country – and other contemporary democracies – today, such as populism, anti-politics, and corruption. Critical but underpinned by thorough data and analysis, it presents alternative views alongside the author's interpretation.

2nd Edition

The Politics of the New Germany

Simon Green

The Politics of the New Germany continues to provide the most comprehensive, authoritative and up-to-date textbook on contemporary German Politics. It covers the entire postwar era but has a particular focus on the post-reunification era.

Written in a straightforward style by three experts, each of the chapters draws on a rich variety of real-world examples. In doing so, it highlights both the challenges and opportunities facing policy-makers in such areas as foreign affairs, economic policy, immigration, identity politics and institutional reforms.

This 2nd edition has been revised and updated throughout and features new material on:

Grand Coalition, Lisbon treaty, Constitutional Court financial crisis and credit crunch reform of social policy Afghanistan.

INTRODUCTION TO EU POLITICS

The European Union

7th Edition

Jonathan Olsen, Texas Woman's University, USA

Thoroughly revised, the seventh edition of this accessible and highly respected text provides a rigorous yet digestible introduction to the European Union. Additionally, it authoritatively explains developments that continue to bring challenges to this powerful institution in times of great political change. Key features include: sustained discussion of transformative and historical change in the upheaval of Brexit and its ramifications; thorough reflection on destabilising issues such as immigration and the years of refugee crisis in Europe, and the rise of populism; and increased coverage throughout of women or minorities within the EU.

LATIN AMERICAN POLITICS

Contentious Politics in Brazil and China

December Green and Laura Luehrmann

This book offers a thought-provoking analysis of two very different countries dealing with many concerns and problems in surprisingly similar ways. With a focus on current issues, *Contentious Politics in Brazil and China* covers migration, urbanization, criminality, the environment, sexual politics and HIV-AIDS response, foreign policy, and international relations. This text not only illuminates each country's realities more clearly than traditional regional or regime-type comparisons can, but it offers unexpected insights into the study of state-society relations.

2nd Edition

Latin American Democracy

Emerging Reality or Endangered Species?

Edited by Richard L. Millet, Southern Illinois University, USA., Jennifer S. Holmes, University of Texas at Dallas, USA and Orlando J. Pérez, Central Michigan University, USA

The second edition of *Latin American Democracy* maintains the mix of practitioners and academic that composed the first edition. Contributors from both North and Latin America explore and assess the state of democratic consolidation in Latin America by focusing on the specific issues and challenges confronting democratic governance in the region. New chapters have been added on the process of decentralization and local government development; the factors affecting the environment and democratic governance in Latin America; and the challenges and opportunities of the increased Chinese presence in the

region.

Nicaragua

Emerging From the Shadow of the Eagle

Thomas W. Walker and Christine J. Wade

Nicaragua: Emerging from the Shadow of the Eagle details the country's unique history, culture, economics, politics, and foreign relations. The thoroughly revised and updated sixth edition features new material covering political, economic, and social developments since 2011. This includes expanded discussions on economic diversification, women and gender, and social programs. Students of Latin American politics and history will learn how the interventions by the United States 'the eagle' to 'the north' have shaped Nicaraguan political, economic, and cultural life, but also the extent to which Nicaragua is increasingly emerging from the eagle's shadow.

3rd Edition

Politics In Chile

Socialism, Authoritarianism, and Market Democracy

Lois Hecht Oppenheim

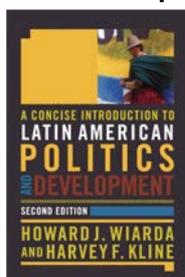

The third edition of *Politics in Chile* provides significantly updated coverage of Chilean politics and economic development from the return to civilian rule in 1990 to the 2006 election and early administration of Socialist Michelle Bachelet, Chile's first woman president. Oppenheim focuses on recent efforts to reconstruct democratic practices and institutions. Chapters on the contemporary politics and economics under the civilian Concertaci governments are largely rewritten. Rather than focusing on the "search for development", this edition considers in greater depth the "exceptionalism" of the Chilean economic experiment through successive stages of stability, socialism, and neoliberalism.

Edited by Manuel Alcántara, University of Salamanca, Spain, Jean Blondel, European University Institute, Italy and Jean-Louis Thiébault, University of Lille, France

This new textbook provides students with a comprehensive and accessible introduction to the presidents and presidential leadership in Latin America. Unlike other texts, *residents and Democracy in Latin America* integrates both historical analysis and major theoretical perspectives with extensive country-specific material. Part One examines the personalization of political life and of presidential government to illustrate the character of Latin American politics. Part Two studies two presidents in six countries in the region which reflect the broad trends in the political and electoral life: Argentina, Brazil, Chile,

Colombia, Mexico and Peru.

2nd Edition

The Political Economy of Latin America

Reflections on Neoliberalism and Development after the Commodity Boom

Peter Kingstone, King's College London, UK

This brief text offers an unbiased reflection on debates about neoliberalism and its alternatives in Latin America with an emphasis on the institutional puzzle that underlies the region's difficulties with democratization and development. In addition to providing an overview of this key element of the Latin American political economy, Peter Kingstone also advances the argument that both state-led and market-led solutions depend on effective institutions, but little is known about how and why they emerge. Kingstone offers a unique contribution by mapping out the problem of how to understand institutions, why they are created, and why Latin American ones limit democratic development.

10th Edition

Keen's Latin American Civilization, Volume 1

A Primary Source Reader, Volume One: The Colonial Era

Robert M. Buffington and Lila Caimari

The tenth edition of *Keen's Latin American Civilization* inaugurates a new era in the history of this classic anthology by dividing it into two volumes. This first volume retains most of the colonial period sources from the ninth edition but with some significant additions including two new sets of images (representations of Brazilian cannibals and 'casta paintings' of mixed race families), an alternative conquest narrative, two new readings on imperial governance, and three new readings on gender and sexuality, including selections from the autobiography of a Spanish nun who took on a male persona to fight as a soldier in the American colonies.

10th Edition

Keen's Latin American Civilization, Volume 2

A Primary Source Reader, Volume Two: The Modern Era

Robert M. Buffington and Lila Caimari

The tenth edition of *Keen's Latin American Civilization* inaugurates a new era in the history of this classic anthology by dividing it into two volumes. This second volume retains most of the modern period sources from the ninth edition but with some significant additions including a new set of images and a wide range of new sources that reflect the latest events and trends in contemporary Latin America. The 75 excerpts in volume two provide foundational and often riveting first-hand accounts of life in modern Latin America. Concise introductions for chapters and excerpts provide essential context for understanding the primary sources.

5th Edition

Latin America

Its Problems and Its Promise: A Multidisciplinary Introduction

Jan Knippers Black

Now in a fifth edition, *Latin America* has been updated to reflect the region's growing optimism as economies stabilize, trade diversifies, and political systems become more participatory. New sections address current events including deforestation in Costa Rica and Brazil, emerging social movements, Ecuador's new constitution, and Obama's stated objectives to repair U.S. relations with the region. Other key topics include: women and Latin American politics, anti-American sentiment, election results in Bolivia, Brazil, and Nicaragua amongst others. Through a hybrid thematic and regional organization, this text provides an essential foundation for introductory courses on Latin America.

Politics Latin America

Gavin O'Toole, Retired

Now in its third edition and fully revised to reflect recent developments in the region, *Politics Latin America* provides students and teachers with an accessible overview of the region's unique political and economic landscape, covering every aspect of governance in its 21 countries. The book examines the international relations of Latin American states as they seek to carve out a role in an increasingly globalised world and will be an ideal introduction for undergraduate courses in Latin American politics and comparative politics.

6th Edition

The Foreign Policy of Russia

Changing Systems, Enduring Interests

Robert H. Donaldson and Vidya Nadkarni

Now fully updated, this text's sixth edition traces the lineage and development of Russian foreign policy chronologically, incorporating new coverage of domestic, regional, and international issues with the major powers and with other post-communist states, with an emphasis on tensions with the US and engagement with Ukraine, Crimea, and Syria. The authors' original modified-realist framework highlights the balance of power, importance of national interest, and sources of continuity and discontinuity in Russia's behavior in the world from tsarist times to the present day.

Theory and History

Mark Eric Williams, PhD, Department of Psychological Sciences, Purdue University

This book examines U.S.-Latin American relations from an historical, contemporary, and theoretical perspective. By drawing examples from the distant and more recent past, Williams illustrates the enduring principles of International Relations theory and provides students the conceptual tools required to help them organize facts, think systematically about issues, weigh competing explanations, and have confidence in their own conclusions regarding the past, present, and future of international politics in the region.

10th Edition

City Politics

The Political Economy of Urban America

Annika M. Hinze, Fordham University, USA and Dennis R. Judd, University of Illinois, Chicago, USA

Praised for the clarity of its writing, careful research, and distinctive theme – that urban politics in the United States has evolved as a dynamic interaction between governmental power, private actors, and a politics of identity – *City Politics* remains a classic study of urban politics retaining the effective structure of past editions while offering important updates. Taught on its own, or supplemented with optional reader *American Urban Politics in a Global Age* for more advanced readers, *City Politics* remains the definitive text on urban politics – and how they have evolved in the US over time – for a new generation of students and researchers.

10th Edition

Urban Politics

Cities and Suburbs in a Global Age

Myron Levine, Wright State University, USA

Urban Politics, 10e blends the most insightful classic and current political science and related literature with current issues in urban affairs. Each chapter has been thoroughly rewritten to clearly relate the content to current events and academic literature, including the importance of the intergovernmental city and the prospects for urban policy and change in and beyond the Trump administration. Mixing classic theory and research on urban politics with the most recent developments and data in urban and metropolitan affairs, *Urban Politics, 10e* is an ideal introductory textbook for students of metropolitan and

regional politics and policy.

Understanding the Humanitarian World

Daniel G Maxwell and Kirsten Gelsdorf

Series: Global Institutions

Conflict and disaster have been part of human history for as long as it has been recorded. Today a large and complex 'global humanitarian response system' made up of a multitude of local, national, and international actors carries out a wide variety of responses. Understanding this intricate system, and the forces that shape it are the core focus of this book.

This book serves as a valuable introductory text to the way humanitarian action operates in the 21st century. It will be essential reading for students and practitioners or anyone with an interest in humanitarian action, international humanitarian

and human rights law, disaster management and international relations.

ENVIRONMENTAL POLITICS

Environment and Sustainability in a Globalizing World

Edited by **Andrea J. Nightingale**, Swedish University for Agricultural Sciences (SLU)

Series: Foundations in Global Studies

From the *Foundations in Global Studies* series, this approachable text introduces students to the globalizing processes relating to the environment and sustainability. Students are guided through a brief history of environmental sustainability in the modern era, the key concepts, key thinkers, and relevant international agencies and treaties. Special emphasis is given to how theory meets reality in models for measuring sustainability, the range of environmental domains at play, and important controversies. Case studies are used to examine theory and

practice at work.

Global Environmental Politics

From Person to Planet

Edited by **Simon Nicholson** and **Paul Wapner**

Global Environmental Politics finally answers the question of how to teach students about environmental harm with a sense of ecological reality, a firm grasp on politics, and an optimistic look toward the future. Section introductions cover key topics such as the four major planetary challenges (climate, extinction, water, and food); leading causes of environmental harm; states, markets, and civil society; race, class, and geopolitical difference; and the value of thinking strategically and broad political imagination. Carefully selected readings from a wide range of sources feature high-profile authors from popular as well as specialist media. Action-oriented exercises engage students.

Green Planet Blues

Critical Perspectives on Global Environmental Politics

Edited by **Geoffrey D. Dabelko** and **Ken Conca**

Revised and updated throughout, this unique anthology examines global environmental politics from a range of perspectives and capturing the voices of both the powerless and the powerful. Organized thematically, the selections offer a truly global scope. Seventeen new readings explore climate justice, globalization, land and water grabs, climate change and conflict, China's international environmental relations, and the future of climate politics in the wake of the Paris Agreement. This book provides readers with a global range of perspectives on the critical challenges facing the planet and its people.

FOREIGN POLICY ANALYSIS

Foreign Policy Analysis

2nd Edition

Edited by **Chris Alden**, London School of Economics & Political Science, London, UK and **Amon Aran**, City University London, UK

Building on the success of the first edition, this revised volume re-invigorates the conversation between foreign policy analysis and IR. It situates existing debates in foreign policy in relation to contemporary concerns in IR, and provides a concise and accessible account of key areas in foreign policy analysis that are often ignored. Focusing on how foreign policy decision making affects the conduct of states in the international system, and analysing the relationship between policy, agency and actors, the volume examines: foreign policy and bureaucracies; domestic sources of foreign policy; foreign policy and the state; foreign policy and globalization; and foreign policy and change.

Foreign Policy Issues for America

The Trump Years

Edited by **Richard W. Mansbach**, Iowa State University, USA and **James M. McCormick**, Iowa State University, USA

Series: Routledge Studies in US Foreign Policy

This volume focuses on the sensitive foreign policy issues that have faced the Trump administration and which will determine the prospects for American decline or continued hegemony. Contributions are divided into "regional" and "functional" issues, exploring the nature and significance of the challenge, the previous response and President Trump's policies and their consequences. Topics have been selected to address political, military, economic, and social factors in global politics and the book will appeal to undergraduates and scholars of US foreign

policy at all levels.

Ideologies of American Foreign Policy

John Callaghan, Brendon O'Connor, US Studies Centre, University of Sydney, Australia, and Mark Phythian, University of Leicester, UK

Series: *Routledge Studies in US Foreign Policy*

A comprehensive account of ideology and its role in the foreign policy of the USA, this book investigates the way US foreign policy has been understood, debated and explained in the period since the US emerged as a world power, on its way to becoming the world power. Starting from the premise that ideologies provide explanatory patterns or frameworks from which meaning can be derived, the authors study the relationship between ideology and foreign policy, demonstrating the important role ideas have played. Bringing a neglected dimension into the study of US foreign policy, this book will be of great interest to students and researchers of US foreign policy, ideology and politics.

Transforming Multilateral Diplomacy

The Inside Story of the Sustainable Development Goals

Macharia Kamau, Pamela Chasek and David O'Connor

Transforming Multilateral Diplomacy provides the inside view of the negotiations that produced the UN Sustainable Development Goals (SDGs). Not only did this process mark a sea change in how the UN conducts multilateral diplomacy, it changed the way the UN does its business. This book tells the story of the people, issues, negotiations, and paradigm shifts that unfolded through the Open Working Group (OWG) on SDGs and the subsequent negotiations on the 2030 Sustainable Development Agenda, from the unique point of view of Ambassador Macharia Kamau, and other key participants from governments, the UN Secretariat, and civil society.

5th Edition

Global Gender Politics

Anne Sisson Runyan

Accessible and student-friendly, *Global Gender Politics* analyzes the gendered divisions of power, labor, and resources that contribute to the global crises of representation, violence, and sustainability. In this new re-titled edition Anne Sisson Runyan continues to examine the challenges of placing inequalities and resisting injustices at the center of global politics scholarship and practice through intersectional and transnational feminist lenses. To provide more support to instructors and readers, *Global Gender Politics* is accompanied by an e-resource, which includes web resources, suggested topics for discussion, and suggested research activities.

Political Worlds of Women

Activism, Advocacy, and Governance in the Twenty-First Century

Mary Hawkesworth

Political Worlds of Women provides a comprehensive overview of women's political activism, comparing formal and informal channels of power from official institutions of state to grassroots mobilizations and Internet campaigns. Illuminating the politics of identity enmeshed in local, national, and global gender orders, this book explores women's creation of new political spaces and innovative political strategies to secure full citizenship and equal access to political power.

Race, Gender, and Culture in International Relations

Postcolonial Perspectives

Edited by Randolph Persaud and Alina Sajed, McMaster University, USA

Persaud and Sajed have drawn together an outstanding lineup of scholars, with each chapter illustrating the ways these specific lenses (race, gender, culture) condition or alter our assumptions about world politics. The volume covers a wide range of topics including war, global inequality, postcolonialism, nation/nationalism, indigeneity, sexuality, celebrity humanitarianism, religion and conflict/militarism; illustrates the subject matter through case studies; and features pedagogical tools and resources in every chapter. Drawing together prominent scholars of international relations, this work shows why and how race, gender and culture matter.

Women and Politics

A Quest for Political Equality in an Age of Economic Inequality

Barbara Burrell, Northern Illinois University, USA

Series: *Routledge Series on Identity Politics*

Women and Politics: A Quest for Political Equality in an Age of Economic Inequality describes the many ways in which women in the United States have used their voices in the political process. The book explores the diverse actions women have taken to achieve empowerment and gender equity. It surveys women as voters, as candidates for elected office and as interest group organizers lobbying for equity in public policy and for global women's rights. It stimulates readers' appreciation of the multiple political voices of American women and the challenges of economic inequality in their quest for political equality.

2nd Edition

Women's Movements in the Global Era

The Power of Local Feminisms

Amrita Basu

This book provides a path-breaking study of the genesis, growth, gains, and dilemmas of women's movements in countries throughout the world. Its focus is on the global South, where women's movements have engaged in complex negotiations with national and international forces. It challenges widely held assumptions about the Western origins and character of local feminisms. The authors locate women's movements within the terrain from which they emerged by exploring their relationships with the state, civil society, and other social movements.

GENOCIDE

Genocide

A Comprehensive Introduction

Adam Jones, University of British Columbia Okanagan, Canada

Genocide: A Comprehensive Introduction is the most wide-ranging textbook on genocide yet published. The book is designed as a text for upper-undergraduate and graduate students, as well as a primer for non-specialists and general readers interested in learning about one of humanity's enduring blights. The third edition will follow relatively closely the template established by the successful first two editions. This new edition aims to bring the analysis and sourcing up to date and to freshen and renew subsidiary components of the book like images, box texts and secondary cases in the case-study chapters.

HUMAN RIGHTS

Human Rights and U.S. Foreign Policy

Clair Apodaca, Virginia Tech University, USA

Series: *Routledge Studies in Human Rights*

Through a series of chapters devoted to U.S. presidential administrations from Nixon to the present, Apodaca delivers a comprehensive examination to understand the development and implementation of U.S. human rights policy. For each administration, she pays close attention to how ideology, bureaucratic politics, lobbying, and competition affect the inclusion or exclusion of human rights in the economic and military aid allocation decisions of the U.S. In doing so, she argues that the history of U.S. human rights policy unfolds as a series of paradoxes that are the result of Presidential preferences, conflict, and cooperation among bureaucratic actors, and of

various political events.

6th Edition

International Human Rights

Jack Donnelly, University of Denver, USA and Daniel J. Whelan, Hendrix College, USA

Fully updated, the sixth edition of this book examines the ways in which states and other international actors have addressed human rights since the end of World War II. It features substantial attention to theory, history, international and regional institutions, and the role of transnational actors in the protection and promotion of human rights. It has been substantially revised throughout, including new material on LGBTQ rights in Africa, Indigenous peoples' rights in Guatemala, the Rohingya crisis in Myanmar, and a new chapter on human rights and development.

International Law

Our Common Future

Mark Gibney

International Law: Our Common Future offers a dynamic approach to the study of international law that actively engages students in ways that more traditional textbooks do not.

What students will quickly come to realize is that international law is not a distant and abstract entity, but rather, is intimately connected to various aspects of their daily lives. The book shows some of the remarkable changes in international law, most notably the declining importance of the role of the state. As a final point, the book is written in an engaging, almost conversational, style that is accessible to students in a wide array of academic disciplines.

The United Nations and Changing World Politics

Revised and Updated with a New Introduction

Thomas G. Weiss, David P. Forsythe, Roger A. Coate and Kelly-Kate Pease

The revised and updated Introduction to this classic text situates the UN in substantially changing world politics, including the election of the ninth Secretary-General, António Guterres; the burgeoning of “new nationalisms” worldwide, including most importantly in the Trump administration’s Washington, DC, and Brexit; and the continuing proliferation of such non-state actors as ISIS and those in the “third UN,” including developmental and humanitarian NGOs. Essential to all classes on the UN, International Organizations, and Global Studies, this interim edition of *The United Nations and Changing World Politics* is refreshed for students and scholars alike.

8th Edition

Theodore H. Cohn, Simon Fraser University and Anil Hira

Praised for its authoritative coverage, *Global Political Economy* places IPE in broad theoretical context and has been updated to cover key new topics including the rise of populism, Brexit, the USMCA, US-China trade wars, refugees and global migration, automation, the “gig” economy, climate change, cryptocurrencies, and the residual effects of global economic crises. Written by leading IPE scholar Theodore Cohn, now joined by his prolific colleague Andy Hira, this book equally emphasizes theory and practice to provide a framework for analyzing current events and long-term developments in the global economy. This text is suitable for both introductory and advanced IPE courses.

International Political Economy

Contrasting World Views

Raymond C. Miller, University of New Mexico, Albuquerque

The second edition of *International Political Economy* continues to be the perfect short introduction to the fundamental theories and issues of IPE. Written in a concise, accessible style by an experienced teacher and scholar, it combines theoretical perspectives, real-world examples, and comparative policy analysis. The text offers students an in-depth, balanced understanding of the contrasting core perspectives in IPE, allowing them to critically evaluate and independently analyze major political-economic events. This thoroughly updated second edition is essential reading for students of international political economy, economics, political science and global governance.

The Struggle for Power and Wealth in a Globalizing World

Thomas D. Lairson, Rollins College, USA and David Skidmore, Drake University, USA

International Political Economy offers a rethinking of the field of international political economy in an era of growing but uneven globalization. By offering a clear explanation of basic concepts, contextualizing the presentation of theoretical debates, and placing current events in historical context, this data-rich text ensures students a deep understanding of how the global economy works. At the same time, it shows students the ways in which globalization affects their lives and those of people around the world.

2nd Edition

International Political Economy in the 21st Century

Contemporary Issues and Analyses

Roy Smith, Nottingham Trent University, UK, Imad El-Anis, Nottingham Trent University, UK and Christopher Farrands, Nottingham Trent University, UK

The new edition of this comprehensive and accessible introduction to the field continues to provide an engaging and coherent foundation to the subject. It considers traditional and alternative approaches to IPE, and in doing so elucidates key concepts, assumptions and the intellectual and historical context in which they arose and developed. It includes key coverage of the post-2015 financial crisis and the international government responses to recent challenges as well as new learning material.

At all times, it makes clear their relevance to issues from trade finance and government, to environment, technology, health, migration, labour, development and culture.

Introduction to International Political Economy

David N. Balaam and Bradford Dillman

This text surveys the theories, institutions, and relationships that characterize IPE and highlights them in a diverse range of regional and transnational issues. A bestseller in the field, it positions students to critically evaluate the global economy and to appreciate the personal impact of political, economic, and social forces. The new edition includes streamlined, comprehensive coverage; added coverage of constructivism in theory chapters; new chapters on Global Production, encompassing transnational corporations and labor, and on Global Health, incorporating food and immigration issues; and new graphs of data plus new text boxes throughout.

Markets as Institutions

Edited by Naazneen H Barma and Steven K. Vogel, University of California, Berkeley, USA

The Political Economy Reader combines in a single volume the key writings of classical and contemporary thinkers on political economy. The articles provide both a theoretical approach to understanding capitalism and a survey of the varieties of capitalism around the world today, examining the interaction between politics and markets both in theory and practice.

3rd Edition

Global Politics

A New Introduction

Edited by Jenny Edkins, University of Aberystwyth, UK and Maja Zehfuss, University of Manchester, UK

The 3rd edition of *Global Politics: A New Introduction* continues to provide a completely original way of teaching and learning about world politics. Completely revised and updated throughout, it includes a host of new illustrative examples which focus on the most pressing issues in global politics, offering new material on a range of topics. Drawing on theoretical perspectives from a broad range of disciplines including international relations, political theory, postcolonial studies, sociology, geography, peace studies and development this

innovative textbook is essential reading for all students of global politics and international relations.

Edited by Arlene B. Tickner, Universidad del Rosario, Bogotá, Colombia and Karen Smith, Leiden University, Netherlands
Series: Worlding Beyond the West

This exciting new textbook challenges the implicit notions inherent in most existing International Relations (IR) scholarship and instead presents the subject as seen from different vantage points in the global South.

This book encourages professors and students in both the global North and the global South to envision the world differently. In addition to general, introductory IR courses at both the undergraduate and graduate levels it will appeal to courses on sociology and historiography of knowledge, globalization, neoliberalism, security, the state, imperialism and international political economy.

4th Edition

International Studies

An Interdisciplinary Approach to Global Issues

Sheldon Anderson, Mark Allen Peterson and Stanley W Toops, Associate Professor, Miami University of Ohio, USA.

This core text is the first to provide a much-needed interdisciplinary approach to international studies. Emphasizing the interconnected nature of history, geography, anthropology, economics, and political science, *International Studies* details the methodologies and subject matter of each discipline then applies these discipline lenses to seven regions: Europe; East Asia and the Pacific; South and Central Asia; sub-Saharan Africa; the Middle East and North Africa; Latin America; and North America. This disciplinary and regional combination provides an indispensable, cohesive framework for understanding global issues.

Introducing International Relations

Paul Sharp

This exciting new textbook provides an accessible and lively introduction to international relations for students encountering the subject for the first time. Presenting complex ideas, concepts and arguments in a straightforward and conversational way, the textbook explains international relations from a diplomatic perspective, emphasizing co-existence in the absence of agreement, and developing students' ability to make sense of the current conditions of international uncertainty. The first introductory textbook to take a diplomatic approach, this text is essential reading for all those looking to take their first steps

into the study of international relations in an era of uncertainty.

3rd Edition

Introduction to Global Politics

Richard W. Mansbach, Iowa State University, USA and
Kirsten L. Taylor, Berry College, Georgia, USA

This fully updated third edition continues to provide a vital resource for students looking to explain global politics using an historical approach, firmly linking history with the events of today. By integrating theory and political practice at individual, state, and global levels, students are introduced to key developments in global politics, helping them make sense of major trends that are shaping our world. Chapter opening timelines contextualise the material that follows, and definitions of key terms are provided in a glossary at the end of the book.

Every chapter ends with student activities, cultural materials, and annotated suggestions for further reading.

Political and Economic Foundations in Global Studies

Edited by Michael R. Anderson and Stephanie S. Holmsten,
University of Texas at Austin, USA

Series: Foundations in Global Studies

Political and Economic Foundations in Global Studies provides an innovative introductory examination of the global forces shaping the world today, seen through political and economic lenses. Along with its companion, *Social and Cultural Foundations in Global Studies*, the book exposes students to the historical contours of, and the key concepts and processes that underlie, the interconnections among individuals, societies, organizations, and governments. As in the rest of Routledge's Global Studies series, the *Foundations* books employ a two-part strategy:

conceptual underpinnings explored in the first part are enlivened by case studies in the second.

Visual Global Politics

Edited by Roland Bleiker, University of Queensland, Australia
Series: Interventions

We live in a visual age. Images play an essential role in shaping international events and our understanding of them, influencing how we view and approach phenomena as diverse as war, humanitarian crises, protest movements and election campaigns. This exciting textbook draws together the leading scholars in the field and presents the first guide to the visual in global politics. Featuring a broad range of topics such as war, terrorism, security, foreign policy, social movements and democratization, contributions deal with a range of theoretical, empirical and ethical issues. Chapters cover a broad spectrum of visual fields,

from photography, film and TV to new media, comic books and art.

What Is Global Studies?

Theory & Practice

Manfred B. Steger, RMIT University, Australia and
Amentahru Wahlrab

What is Global Studies, and how does it relate to globalization? Responding to this frequently asked question, Manfred B. Steger and Amentahru Wahlrab provide the first comprehensive overview of this emerging field—one of the most popular fields of study in major universities around the world.

This primer speaks to students and instructors interested not only in key theories but also in applied teaching and learning programs designed to educate "global citizens" to meet the concrete challenges of the twenty-first century. The authors

discuss the arguments of major thinkers, and the "Four Pillars of Global Studies": globalization, transdisciplinarity, space and time, and critical thinking.

Comparative Latin American Politics

Ronald M. Schneider

Highlighting crucial periods of dynamic socioeconomic and political change, *Comparative Latin American Politics* provides a balanced, concise overview of select Latin American countries without underestimating the complexities of a region noted for its striking differences. Recognizing that political institutions and cultures are built over generations, author Ronald M. Schneider examines the period from independence to 1930 and from 1930 to the present day. Each part devotes chapters to specific country coverage as well as meaningful comparative perspectives that illuminate the political evolution of the region and offer salient lessons for other developing parts of the world.

10th Edition

Keen's Latin American Civilization, 2-Volume SET

A Primary Source Reader

Robert M. Buffington and Lila Caimari

The tenth edition of Keen's *Latin American Civilization* inaugurates a new era in the history of this classic anthology. Volume 1 retains most of the colonial period sources from the ninth edition but with some significant additions including new sets of images, an alternative conquest narrative, new readings on imperial governance, gender, and sexuality. Volume 2 retains most of the modern period sources from the ninth edition but with some significant additions including new readings on popular culture, ideologies of modernization, revolution and dictatorship, as well as new sources that reflect the latest events and trends.

10th Edition

Keen's Latin American Civilization, Volume 1

A Primary Source Reader, Volume One: The Colonial Era

Robert M. Buffington and Lila Caimari

The tenth edition of Keen's *Latin American Civilization* inaugurates a new era in the history of this classic anthology by dividing it into two volumes. This first volume retains most of the colonial period sources from the ninth edition but with some significant additions including two new sets of images (representations of Brazilian cannibals and 'casta paintings' of mixed race families), an alternative conquest narrative, two new readings on imperial governance, and three new readings on gender and sexuality, including selections from the autobiography of a Spanish nun who took on a male persona to fight as a soldier in the American colonies.

10th Edition

Keen's Latin American Civilization, Volume 2

A Primary Source Reader, Volume Two: The Modern Era

Robert M. Buffington and Lila Caimari

The tenth edition of Keen's *Latin American Civilization* inaugurates a new era in the history of this classic anthology by dividing it into two volumes. This second volume retains most of the modern period sources from the ninth edition but with some significant additions including a new set of images and a wide range of new sources that reflect the latest events and trends in contemporary Latin America. The 75 excerpts in volume two provide foundational and often riveting first-hand accounts of life in modern Latin America. Concise introductions for chapters and excerpts provide essential context for understanding the primary sources.

Latin America

Its Problems and Its Promise: A Multidisciplinary Introduction

Jan Knippers Black

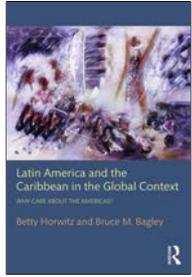

Now in a fifth edition, *Latin America* has been updated to reflect the region's growing optimism as economies stabilize, trade diversifies, and political systems become more participatory. New sections address current events including deforestation in Costa Rica and Brazil, emerging social movements, Ecuador's new constitution, and Obama's stated objectives to repair U.S. relations with the region. Other key topics include: women and Latin American politics, anti-American sentiment, election results in Bolivia, Brazil, and Nicaragua amongst others. Through a hybrid thematic and regional organization, this text provides an essential foundation for introductory courses on Latin America.

Latin America in the World

An Introduction

Edited by Antonia Garcia-Rodriguez, Pace University, USA and Daniel J. Greenberg, Pace University, USA

Series: Foundations in Global Studies

This text offers a fresh, comprehensive, multidisciplinary entry point to Latin America. After a brief introduction to the region, the early chapters survey the essentials of Latin American history; important historical narratives; and the region's languages, religions, and global connections. The second half of the book features interdisciplinary case studies, each of which focuses on a specific country or region and a particular issue. Readers will come away from this book with an understanding of the larger historical, political, and cultural frameworks that shaped Latin

America as we know it today, and of current issues that have relevance in Latin America and beyond.

Understanding U.S.-Latin American Relations

Theory and History

Mark Eric Williams, PhD, Department of Psychological Sciences, Purdue University

This book examines U.S.-Latin American relations from an historical, contemporary, and theoretical perspective. By drawing examples from the distant and more recent past, Williams illustrates the enduring principles of International Relations theory and provides students the conceptual tools required to help them organize facts, think systematically about issues, weigh competing explanations, and have confidence in their own conclusions regarding the past, present, and future of international politics in the region.

MIGRATION AND IMMIGRATION

Immigration in the 21st Century

Terri E. Givens, Rachel Navarre and Pete Mohanty

This text provides an introduction to the politics of immigration policy in the U.S., Australia, Canada, and Europe. It gives students an overview of the theoretical approaches used by political scientists to analyze immigration politics and provides historical background to the policies and politics that affect democracies today. A comparative politics approach develops the context that explains how immigration and politics interact in different types of countries. Covering topics including party politics, labor migration, and citizenship, students gain an understanding of the complexities of immigration politics and how immigration policies are affecting the world today.

NATIONALISM AND ETHNICITY

Race, Gender, and Culture in International Relations

Edited by Randolph Persaud and Alina Sajed, McMaster University, USA

Persaud and Sajed have drawn together an outstanding lineup of scholars, with each chapter illustrating the ways these specific lenses (race, gender, culture) condition or alter our assumptions about world politics. The volume covers a wide range of topics including war, global inequality, postcolonialism, nation/nationalism, indigeneity, sexuality, celebrity humanitarianism, religion and conflict/militarism; illustrates the subject matter through case studies; and features pedagogical tools and resources in every chapter. Drawing together prominent scholars of international relations, this work shows why and how race, gender and culture matter.

PEACE AND CONFLICT STUDIES

Cold War

2nd Edition

Carole K. Fink

The decades-long Cold War was more than a bipolar conflict between two Superpowers-it had implications for the entire world. In this accessible, comprehensive retelling, Fink provides new insights and perspectives on key events with an emphasis on people, power, and ideas. *Cold War* goes beyond US-USSR relations to explore the Cold War from an international perspective, including developments in Africa, Asia, and Latin America. Fink also offers a broader time line of the Cold War than any other text, charting the lead-up to the conflict from the Russian Revolution to World War II and discussing the aftermath of the Cold War up to the present day, including the "new Cold War" with Russia.

5th Edition

Conflict After the Cold War

Arguments on Causes of War and Peace

Edited by Richard K. Betts

Edited by one of the most renowned scholars in the field, Richard Betts' *Conflict After the Cold War* assembles classic and contemporary readings on enduring problems of international security. Offering broad historical and philosophical breadth, the carefully chosen and excerpted selections help students engage key debates over the future of war and the new forms that violent conflict will take. This reader encourages closer scrutiny of the political, economic, social, and military factors that drive war and peace. With updated, original introductions to the book and all 10 major parts; a new section on "Threat Assessment and Misjudgment," and 12 new readings.

The Peacemaker's Paradox

Pursuing Justice in the Shadow of Conflict

Priscilla Hayner

Building on her path-breaking *Unspeakable Truths*, Priscilla Hayner expands her focus on truth commissions to explore peace negotiations and conflict resolution in the world's toughest cases of civil war. Drawing on first-hand involvement in the peace process and dozens of interviews with peacemakers and war criminals, Hayner shows the peace vs. justice debate in action and offers a model for balancing the concerns of ending the violence and righting wartime wrongs. *The Peacemaker's Paradox* delves into fresh new case studies like Gaddafi's Libya and the FARC in Colombia, and probes the ICC's role and offers recommendations for harnessing its power in even the most intractable conflicts.

POLITICAL CONCEPTS

The Anarchist Imagination

Edited by Carl Levy, Professor of Politics at Goldsmiths, University of London and Saul Newman, Goldsmiths, University of London

Series: *Interventions*

This is a broad ranging introduction to 21st century anarchism which includes a wide array of theoretical approaches as well as a variety of empirical and geographical perspectives. The book demonstrates how the anarchist imagination has influenced the humanities and social sciences including anthropology, art, feminism, geography, international relations, political science, postcolonialism and sociology.

This work will be essential reading for scholars and students of anarchism, the humanities and the social sciences.

POLITICAL PSYCHOLOGY

Political Psychology

2nd Edition

David Patrick Houghton, King's College London, UK

This text provides a concise, readable, and conceptually organized introduction to the topic. Houghton's examples challenge students to place themselves in both real and hypothetical situations which involve intense moral & political dilemmas. The text asks students throughout to consider whether situations or dispositions matter more in political decision making. The new edition includes a new chapter on the psychology of the media & communication. Houghton has also updated the text to analyze recent political events such as the 2012 election, and to include up-and-coming research in the areas of neuroscience, behavioral economics, and more.

POLITICAL SYSTEMS

Introduction to Global Politics, 3rd Edition

Richard W. Mansbach, Iowa State University, USA and
Kirsten L. Taylor, Berry College, Georgia, USA

This fully updated third edition continues to provide a vital resource for students looking to explain global politics using an historical approach, firmly linking history with the events of today. By integrating theory and political practice at individual, state, and global levels, students are introduced to key developments in global politics, helping them make sense of major trends that are shaping our world. Chapter opening timelines contextualise the material that follows, and definitions of key terms are provided in a glossary at the end of the book.

Every chapter ends with student activities, cultural materials, and annotated suggestions for further reading.

POLITICAL THOUGHT

Ideals and Ideologies

11th Edition

Terence Ball, Arizona State University, Richard Dagger, University of Richmond and Daniel I. O'Neill, University of Florida

Ideals and Ideologies: A Reader is a comprehensive compilation of classic and original readings representing all of the major 'isms'. It offers students a generous sampling of key thinkers in different ideological traditions and places them in their historical and political contexts. Used on its own or with *Political Ideologies and the Democratic Ideal*, the title accounts for the different ways people use ideology and conveys the ongoing importance of ideas in politics.

3rd Edition

Introduction to Political Theory

John Hoffman, University of Leicester, UK and Paul Graham, University of Buckingham, UK

Introduction to Political Theory is a text for the 21st century. It shows students why an understanding of theory is crucial to an understanding of issues and events in a rapidly shifting global political landscape. Bringing together classic and contemporary political concepts and ideologies into one book, this new text introduces the major approaches to political issues that have shaped the modern world, and the ideas that form the currency of political debate.

The revised glossary, revamped website for further reading and new streamlined layout make *Introduction to Political Theory* third edition the perfect accompaniment to undergraduate study.

Political Ideologies and the Democratic Ideal

Terence Ball, Richard Dagger and Daniel I. O'Neill

Political Ideologies and the Democratic Ideal analyzes political ideologies to help readers understand individual ideologies, and the concept of ideology, from a political science perspective. This best-selling title promotes open-mindedness and develops critical thinking skills. It covers a wide variety of political ideologies from the traditional liberalism and conservatism to recent developments in liberation politics, the emergence of the Alt-Right, and environmental politics.

4th Edition

Political Thinking, Political Theory, and Civil Society

Steven M. DeLue, Miami University of Ohio, USA and
Timothy M. Dale

A comprehensive overview of the Western tradition of political thought that approaches concepts with the aim of helping readers develop their own political thinking and critical thinking skills. This text is uniquely organized around the theme of civil society. Major thinkers discussed in the text are explored not only with the goal of understanding their views, but also with an interest in understanding the relationship of their ideas to the notion of a civil society. DeLue and Dale contend that a civil society is important for securing the way of life that most of us value and want to preserve, a way of life that allows people to live freely and place significance on their own lives.

The Art and Craft of Political Theory

Leslie Paul Thiele, University of Florida, USA

The Art and Craft of Political Theory provides a critical overview of the discipline's core concepts and concerns and its development of critical thinking and practical judgment. The field's interdisciplinary strengths are deployed to grapple with emerging issues and engage afresh enduring ideals and quandaries. While conventional definitions of key concepts are provided, original and controversial perspectives are also explored, revealing continuity in a tradition of thought while emphasizing its diversity and innovations. This concise, lively, and accessibly written book is essential reading for all students of political theory.

RELIGION AND POLITICS

An Introduction to Religion and Politics

2nd Edition

Jonathan Fox, Bar Ilan University, Israel

Series: *Routledge Studies in Religion and Politics*

This fully revised edition offers a comprehensive overview of the many theories of religion and politics and provides students with an accessible, in-depth guide to the subject's most significant debates, issues and methodologies. Asking the basic question of why religion remains relevant to politics in the modern era, Fox examines the influence of religious identity, beliefs, institutions and legitimacy on politics and surveys important approaches and issues found in the literature on religion and politics. This work will be essential reading for all students of religion and politics, comparative politics,

international relations and security studies.

Muslim Democracy

Politics, Religion and Society in Indonesia, Turkey and the Islamic World

Edward Schneider, City College of the City University of New York

Muslim Democracy explores the relationship between politics and religion in forty-seven Muslim-majority countries, focusing especially on those with democratic experience, such as Indonesia and Turkey, and drawing comparisons with their regional, non-Islamic counterparts. Unlike most studies of political Islam, this is a politically-focused book, more concerned with governing realities than ideology. By changing the terms of the debate from theology to politics, and including the full complement of Islamic countries, Schneider shows that the boundaries between church and state in the Islamic world are more variable and diverse than is commonly assumed.

The Foreign Policy of Russia

Changing Systems, Enduring Interests

Robert H. Donaldson and Vidya Nadkarni

Now fully updated, this text's sixth edition traces the lineage and development of Russian foreign policy chronologically, incorporating new coverage of domestic, regional, and international issues with the major powers and with other post-communist states, with an emphasis on tensions with the US and engagement with Ukraine, Crimea, and Syria. The authors' original modified-realist framework highlights the balance of power, importance of national interest, and sources of continuity and discontinuity in Russia's behavior in the world from tsarist times to the present day.

7th Edition

National Security

Donald M. Snow, University of Alabama, USA

The seventh edition of this highly successful textbook analyzes the history, evolution, and processes of national security policies. It examines national security from two fundamental fault lines: the end of the Cold War and the evolution of contemporary terrorism since 9/11. The book considers how the resulting era of globalization and geopolitics guides policy, covering everything from the global to the individual with the nation at its core. This book will continue to be highly beneficial to students and scholars working and studying in Security studies, Military and Strategic studies, Defence studies, Foreign Policy, US Politics and International Relations.

4th Edition

Global Terrorism

James Lutz, Indiana University, USA and **Brenda Lutz**, Indiana University, USA

Global Terrorism, 4th edition continues to provide students with the most comprehensive introduction to terrorism as a global phenomenon. It introduces students to history, politics, ideologies, and strategies of both contemporary and earlier terrorist groups. Written in a clear and accessible style, each chapter explains a distinctive aspect of terrorism and discusses a wide variety of detailed case studies from around the world. The unique combination of a genuinely historical focus and truly global coverage makes this an ideal introductory textbook for anyone interested in the study of terrorism.

2nd Edition

Human and National Security

Understanding Transnational Challenges

Derek S. Reveron and **Kathleen A. Mahoney-Norris**

To fully understand contemporary security studies, we must move beyond the traditional focus on major national powers and big wars. Modern threats to security include issues such as globalization, climate change, pandemic diseases, endemic poverty, weak and failing states, transnational narcotics trafficking, piracy, and vulnerable information systems. This book offers a fresh, detailed examination of these challenges that threaten human beings, their societies, and their governments today.

3rd Edition

Security Studies

An Introduction

Edited by **Paul D. Williams**, George Washington University, USA and **Matt McDonald**, The University of Queensland, Australia

This comprehensive textbook on security studies provides students with an essential grounding in the existing debates, frameworks and issues in contemporary security studies. Chapters have been comprehensively revised and updated for this new edition and eight new chapters have been added on post-structuralism, post-colonialism, securitization, peace and violence, development, women, peace and security, cyber-security, and outer space. A valuable teaching tool for undergraduates and MA students that collects these related

strands of the field together into a single coherent textbook.

4th Edition

Understanding Global Security

Peter Hough, Middlesex University, UK

This fourth edition of *Understanding Global Security* analyzes the variety of ways in which people's lives are threatened and how these threats can be neutralised. Traditional security studies subjects such as war, deterrence and terrorism are analyzed alongside non-military issues such as crime, health, environmental degradation and natural disasters. The volume reflects on the changing nature of the definition of security and the evolution of the theoretical debate. Key concepts are defined and explained and prominent political thinkers and activists profiled in a clear and concise format that introduces readers from a range of disciplines to the full spectrum of security issues.

Edited by **Michel Gueldry**, Middlebury Institute of International Studies, USA, **Gigi Gokcek**, Dominican University of California, USA and **Lui Hebron**, Hult International Business School, USA

This book offers a methodical treatment of new forms of threats, insecurity, and uncertainty in a globalised world. The contributors here discuss and compare various case studies and theoretical approaches for their particular security issue to help students and instructors in their work. Authors also suggest remedial solutions for the security issues they identify.

This book will be of great interest to students of international security studies, human security, global politics and International

Relations.

Terrorism in the Twenty-First Century

Cynthia C. Combs

Terrorism in the Twenty-First Century helps readers understand terrorism, responses to it, and current trends that affect the future of this phenomenon.

Putting terrorism into historical perspective and analyzing it as a form of political violence, this text presents the most essential concepts, the latest data, and numerous case studies to promote effective analysis of terrorist acts. *Terrorism in the Twenty-First Century* objectively breaks down the who-what-why-how of terrorism, giving readers a way both to understand patterns of behavior and to more critically evaluate forthcoming patterns.

US POLITICS

Foreign Policy Issues for America

Edited by **Richard W. Mansbach**, Iowa State University, USA and **James M. McCormick**, Iowa State University, USA

Series: Routledge Studies in US Foreign Policy

This volume focuses on the sensitive foreign policy issues that have faced the Trump administration and which will determine the prospects for American decline or continued hegemony. Contributions are divided into "regional" and "functional" issues, exploring the nature and significance of the challenge, the previous response and President Trump's policies and their consequences. Topics have been selected to address political, military, economic, and social factors in global politics and the book will appeal to undergraduates and scholars of US foreign

policy at all levels.

Ideologies of American Foreign Policy

John Callaghan, Brendon O'Connor, US Studies Centre, University of Sydney, Australia. and **Mark Phythian**, University of Leicester, UK

Series: Routledge Studies in US Foreign Policy

A comprehensive account of ideology and its role in the foreign policy of the USA, this book investigates the way US foreign policy has been understood, debated and explained in the period since the US emerged as a world power, on its way to becoming the world power. Starting from the premise that ideologies provide explanatory patterns or frameworks from which meaning can be derived, the authors study the relationship between ideology and foreign policy, demonstrating

the important role ideas have played. Bringing a neglected dimension into the study of US foreign policy, this book will be of great interest to students and researchers of US foreign policy, ideology and politics.

7th Edition

National Security

Donald M. Snow, University of Alabama, USA

The seventh edition of this highly successful textbook analyzes the history, evolution, and processes of national security policies. It examines national security from two fundamental fault lines: the end of the Cold War and the evolution of contemporary terrorism since 9/11. The book considers how the resulting era of globalization and geopolitics guides policy, covering everything from the global to the individual with the nation at its core. This book will continue to be highly beneficial to students and scholars working and studying in Security studies, Military and Strategic studies, Defence studies, Foreign Policy, US Politics and International Relations.

AMERICAN POLITICAL THOUGHT

American Political Thought

Edited by Jonathan Keller and Alex Zamalin, University of Detroit Mercy, USA

Series: Routledge Series on Identity Politics

Exposing the major ideas and thinkers of the four major yet still underappreciated alternative traditions of American political thought—African American, radical, feminist and conservative—this book challenges the boundaries of American political thinking about such values like freedom, justice, equality, democracy, economy, rights, identity and the role of the state in American life. These traditions, the various authors show in different ways, not only present a much fuller and more accurate characterization of what counts as American political thought.

They are also especially unique for the conceptual resources they provide for addressing contemporary developments in American politics.

CLASSICAL POLITICAL THEORY

The Art and Craft of Political Theory

Leslie Paul Thiele, University of Florida, USA

The Art and Craft of Political Theory provides a critical overview of the discipline's core concepts and concerns and its development of critical thinking and practical judgment. The field's interdisciplinary strengths are deployed to grapple with emerging issues and engage afresh enduring ideals and quandaries. While conventional definitions of key concepts are provided, original and controversial perspectives are also explored, revealing continuity in a tradition of thought while emphasizing its diversity and innovations. This concise, lively, and accessibly written book is essential reading for all students of political theory.

DEMOCRATIC THEORY

Democracy in Theory and Practice

Frederick G. Whelan, University of Pittsburgh, USA

Designed for courses at both the undergraduate and graduate level, the book features eighteen chapters organized thematically and divided into sections and subsections for easy reference; historical and current examples, citations for specific ideas, annotated references and further readings throughout enhance the volume's utility for students, scholars, and researchers. Sidebars give biographical sketches of classic theorists and democratic ideas from the U.S. founders and constitutional tradition. Written by a leading authority in the field, Frederick G. Whelan encourages us to think of the many alternative ways of putting democracy into practice.

EXPERIMENTAL METHODS

Field Experiments in Political Science and Public Policy

Peter John, University College London, UK

Series: *Routledge Studies in Experimental Political Science*

Peter John's latest book is an introduction to experimentation in political science and public policy. It first defines experimentation and offers historical context, and then moves on to review key features of the statistical method, all the while linking experimentation to core ideas in politics and public policy. Yet rather than functioning as just a research methods text, the book instead is an invitation to the intellectual project and research program of experimentation, which has large ramifications for how researchers and students of political science and public policy carry out their work more generally.

FEMINIST POLITICAL THOUGHT

Fundamental Feminism

2nd Edition

Judith Grant

In *Fundamental Feminism*, Judith Grant explores the evolution of feminist theory as well as the state of today's feminist thought. Pointing to the main problems within feminism, Grant calls for a substantial revision of the core concepts responsible for shaping today's feminist theory. Grant identifies and critiques three core concepts in feminist theory – "woman," "experience," and "personal politics" – from their origins in pamphlets and writings in the early women's liberation movement to their current construction in feminist thought.

GLOBAL COMPARATIVE POLITICAL THEORY

Latin American Thought

Susanna Nuccetelli

This book examines the relationship between philosophy and rationality in Latin American thought, the nature of justice, human rights, and cultural identity, and other questions that have concerned Latin American thinkers from the colonial period to the present day. From the Mayans, Aztecs, and Incas to the present day, reveals the assembly of interesting philosophical arguments offered by Latin Americans. Nuccetelli traces Latin American thought through questions concerning rationality, gender discrimination, justice, human rights, reparation for historically dispossessed peoples, and relativism vs. universalism.

INTRODUCTION TO POLITICAL PHILOSOPHY

Political Philosophy in the Twenty-First Century

Steven M. Cahn and Robert B. Talisse

Moving beyond the work of Rawls and his critics, this concise collection contains critical essays in contemporary political philosophy. All have been chosen for their importance and accessibility, and some have been edited by their authors for inclusion in this work. *Political Philosophy in the Twenty-First Century* covers five main topics: equality, justice, liberty, democracy, and human rights. To assist readers, the editors have also provided section introduction and study questions as well as an overall introduction explaining the background to contemporary work in political philosophy.

INTRODUCTION TO POLITICAL THEORY

Ideals and Ideologies

11th Edition

Terence Ball, Arizona State University, Richard Dagger, University of Richmond and Daniel I. O'Neill, University of Florida

Ideals and Ideologies: A Reader is a comprehensive compilation of classic and original readings representing all of the major 'isms'. It offers students a generous sampling of key thinkers in different ideological traditions and places them in their historical and political contexts. Used on its own or with *Political Ideologies and the Democratic Ideal*, the title accounts for the different ways people use ideology and conveys the ongoing importance of ideas in politics.

3rd Edition

Introduction to Political Theory

John Hoffman, University of Leicester, UK and Paul Graham, University of Buckingham, UK

Introduction to Political Theory is a text for the 21st century. It shows students why an understanding of theory is crucial to an understanding of issues and events in a rapidly shifting global political landscape. Bringing together classic and contemporary political concepts and ideologies into one book, this new text introduces the major approaches to political issues that have shaped the modern world, and the ideas that form the currency of political debate.

The revised glossary, revamped website for further reading and new streamlined layout make *Introduction to Political Theory* third edition the perfect accompaniment to undergraduate study.

Political Ideologies and the Democratic Ideal

Terence Ball, Richard Dagger and Daniel I. O'Neill

Political Ideologies and the Democratic Ideal analyzes political ideologies to help readers understand individual ideologies, and the concept of ideology, from a political science perspective. This best-selling title promotes open-mindedness and develops critical thinking skills. It covers a wide variety of political ideologies from the traditional liberalism and conservatism to recent developments in liberation politics, the emergence of the Alt-Right, and environmental politics.

4th Edition

Political Thinking, Political Theory, and Civil Society

Steven M. DeLue, Miami University of Ohio, USA and Timothy M. Dale

A comprehensive overview of the Western tradition of political thought that approaches concepts with the aim of helping readers develop their own political thinking and critical thinking skills. This text is uniquely organized around the theme of civil society. Major thinkers discussed in the text are explored not only with the goal of understanding their views, but also with an interest in understanding the relationship of their ideas to the notion of a civil society. DeLue and Dale contend that a civil society is important for securing the way of life that most of us value and want to preserve, a way of life that allows people to live freely and place significance on their own lives.

Student-Centered and Transformative Teaching in Political Science

Edited by Lee Trepanier, Saginaw Valley State University, USA

This exciting new textbook provides a sophisticated examination of the Socratic method for teaching political science students in higher education. It shows how the Socratic method is employed in the Platonic dialogues, compares its transformative approach to other student-centered teaching philosophies, and addresses the challenges of adopting the Socratic method in the contemporary classroom. Written in a clear and engaging style, this timely intervention is essential reading for upper undergraduate students enrolled in courses that specialize in pedagogical techniques, political theory, Socratic philosophy,

and law.

POLITICAL THEORY AND CINEMA

The Cinematic Political

Michael J. Shapiro, Edward S. Shapiro, PhD, Director, Center for Promoting Research to Practice, and Professor, School Psychology Program, Lehigh University

The Cinematic Political is a teaching resource and learning tool introducing students to film form and its relationship to thinking/theorizing politically. The text walks readers through the questions of how to do/write political theory, how to watch films, and how to achieve an effectively written research paper in which the composition of a film (or of a set of films) constitutes the textual vehicle of political theorizing. Upon finishing this book, students will have the foundational skills and methods needed to think and view films.

QUANTITATIVE DATA ANALYSIS

Understanding Political Science Statistics

Peter Galderisi, University of California, San Diego, USA

In this text, students are introduced to a problem, asked to consider, conceptually, how one would address that problem, and then led through the derivation of the appropriate statistical formula. This applied method of teaching statistics through political science examples allows students to see the research method as problem solving. They learn the math, but only after they learn the concepts that give the math context.

In a data-driven political age, *Understanding Political Science Statistics* is an invaluable text that makes complex concepts accessible to today's student of political science.

2nd Edition

Political Science Research in Practice

Edited by Akan Malici and Elizabeth S. Smith, Furman University, USA

Malici and Smith engage students first with pressing political questions and then demonstrate how a researcher has gone about answering them, walking them through real political science research that contributors have conducted. Through the exemplary use of survey research, experiments, field research, case studies, content analysis, interviews, document analysis, and statistical research, each chapter introduces students to a method of empirical inquiry through a specific topic that will spark their interest and curiosity. Each chapter shows the process

of developing a research question, how and why a particular method was used, and the rewards and challenges discovered along the way.

Research Methods for Political Science

Quantitative, Qualitative and Mixed Method Approaches

David E. McNabb, Pacific Lutheran University, Tacoma, Washington, USA

The third edition of *Research Methods for Political Science* retains its effective approach to help students learn what to research, why to research, and how to research. The text integrates both quantitative and qualitative approaches to research in one volume and covers such important topics as research design, specifying research problems, designing questionnaires and writing questions, designing and carrying out qualitative research. Heavily illustrated, classroom tested, and exceptionally readable, this updated edition will give students the confidence and knowledge they need to understand the methods and

basics skills for data collection, presentation, and analysis.

Understanding Political Science Research Methods

The Challenge of Inference

Maryann Barakso, University of Massachusetts, Amherst, USA, Daniel M. Sabet, Georgetown University, USA and Brian Schaffner, University of Massachusetts, Amherst, USA

Three themes run through Barakso, Sabet, and Schaffner's text: minimizing classic research problems to making valid inferences, effective presentation of research results, and the nonlinear nature of the research process. Throughout their academic years and later in their professional careers, students will need to effectively convey various bits of information. Presentation skills gleaned from this text will benefit students for a lifetime, whether they continue in academia or in a professional career.

Understanding Research

Coping with the Quantitative - Qualitative Divide

M.I. Franklin, Goldsmiths College, University of London, UK

This textbook introduces advanced undergraduates and graduate students to the research process. It explains how the research process works, from the initial research question to formulating an overall research design in line with contemporary disciplinary and inter-disciplinary frameworks. The textbook provides a clear and accessible introduction to key methodological and theoretical debates discussing both qualitative and quantitative methods while remaining focussed on the practical concerns of the research student.

1. Introduction 2. Theoretic-Methodological Debates in Historical Perspective 3. Piecing Together a Puzzle: First steps in Designing a Research Proposal 4. Situating Yourself 5. Making Choices: Quantitative or Qualitative? 6. Doing the Research 7. Writing it All Up 8. Same Question, Different Methods? 9. Conclusion: Surviving the Research Process

5th Edition

Diane E. Schmidt

A complete, professional resource for writing an effective paper in all subfields of political science, Diane Schmidt's 25th anniversary edition provides students with a practical, easy-to-follow guide for writing about political ideas, events, policies, passions, agendas, and processes. It offers additional formats and guidelines focusing on the growing use of social media and the need for professional communication in blogs, tweets, forums, media sites, lectures on demand, and postings on websites. A collection of student papers shows students how to write well for better grades.
